## Professional Profile

MSc Artificial Intelligence student at the University of Bath who designs and builds personal software projects using Claude Code. Analytical and detail-oriented Mathematics and Economics graduate with practical experience in audit, accounts, procurement, and financial analysis. Demonstrates strong Excel, Python, and accounting software skills, complemented by problem-solving abilities and leadership experience. Curious, thoughtful, and innovative, with a strong interest in AI and technology-driven solutions. Enjoys solving complex problems, recognising patterns, and applying insights effectively. Thrives in collaborative team environments, communicates ideas clearly, and adapts flexibly to new challenges. Seeking to apply financial knowledge, analytical expertise, and innovative thinking to a data-driven role.

## Education

**University of Bath – Bath, UK** | MSc Artificial Intelligence (with placement year) | 2026 – 2028
**University of Liverpool – Liverpool, UK** | BSc (Hons) Mathematics and Economics | 2023 – 2026
**Portsmouth Grammar School – Portsmouth, UK** | A Levels: Maths (A), Physics (C), Biology (C) 2023 | 10 GCSEs incl. Maths & English 2021
**The London Institute of Banking and Finance** | Level 2 Award in Financial Education | 2019

## Experience

**Dunnhumby – Hammersmith, UK** | Procurement Intern | Jul 2025
• Catalogued and tracked contracts across the procurement pipeline
• Worked alongside analysts mapping processes
• Documented IT support workflows and data handling procedures

**Hillier – Romsey, UK** | Audit and Accounts Work Experience | Jun 2025
• Prepared balance sheets and financial statements
• Processed payroll, invoicing and inventory records in Excel

**Kreston Reeves – Chichester, UK** | Audit and Accounts Intern | Aug 2024
• Prepared financial statements alongside audit teams
• Applied accounting software to reconcile client records and workflows

**Outlier AI – UK** | Artificial Intelligence Contributor | 2024 – Present
• Solved and evaluated advanced mathematical problems to enhance AI reasoning models

**Liverpool Olympia – Liverpool, UK** | Bar Manager | 2023 – 2026
• Oversaw customer service in a high-traffic entertainment venue
• Applied conflict resolution, teamwork and communication skills

**Ashling Park Vineyard – West Sussex, UK** | Bartender & Assistant Chef | 2022 – 2024
• Delivered high-quality customer service and ensured food hygiene standards
• Strengthened teamwork, planning and organisational skills

**Central FX Foreign Exchange – London, UK** | Shadowing FX Traders | Aug 2022
• Tracked FX market operations, data analysis and risk assessment

## Volunteer Experience

Portsmouth School Holiday Camps | Assistant Sports Coach | 2021–2022
St Georges Primary School | Classroom Assistant | 2021–2022
Portsmouth Grammar School | Library Assistant | 2020–2021
Queen Alexandra Hospital | Young Person Representative | 2017–2019

---

## Awards & Certifications

**Anthropic Certificates:** Claude 101, Claude Code 101, Claude Code in Action, Claude Platform 101, Claude with the Anthropic API, Introduction to Claude Cowork, Model Context Protocol (Introduction & Advanced Topics), Introduction to subagents, Introduction to agent skills, AI Fluency (Framework & Foundations; AI Capabilities & Limitations) | Jul – Aug 2026
**Mathematics for Machine Learning and Data Science Specialization (DeepLearning.AI)** | Sep 2026
**ChatGPT & Generative AI: Prompt Engineering for Business** | Jul 2025
**IBM Python Project for Data Science** | Jul 2025
**HP Life Cash Flow Online Course** | Jul 2025
**Tesco Retail Media Certification** | May 2025
**JPMorgan Chase Investment Banking Job Simulation** | 2024

---

## Key Skills

**Technical:** Excel, Python, SQL/SQLite, Data Analysis, Regression, RStudio, MATLAB, FastAPI, Next.js/TypeScript, Git/GitHub, Claude Code, Financial Statements
**Soft Skills:** Leadership, Communication, Problem Solving, Adaptability, Teamwork

## Projects

PaperAlpha – Stock & Crypto Trading Simulator

- Used Claude Code to build and deploy a full stack trading simulation platform where users trade stocks, crypto and commodities with $100,000 virtual cash at live market prices using Vercel. Portfolio tracking, real time profit and loss, trade history and competitive leaderboard included.
- Engineered a trading engine handling order execution, weighted average cost basis accounting and realised and unrealised profit and loss. Backed by a database and user authentication using Clerk.

Placement Scout 2026

- Founded and built a free platform helping finance students discover boutique UK firms overlooked by major job boards, using Companies House and FCA register data.
- Used Claude Code to build a Python data pipeline processing over 70,000 companies into a curated database, and launched a public product with email capture and a weekly digest.

Game Theory Simulator 2026

- Used Claude Code to build a tool to compute Nash equilibria and the best responses. This included an animated iterated elimination of strictly dominated strategies for two player games of perfect information.
- Included classic games such as the Prisoners Dilemma and explanations for user designed payoff matrices.

Regression Analysis Project 2025

- Conducted a multiple linear regression study covering model specification, diagnostic testing and interpretation of statistical significance in a group during a Linear Statistical Models module in university.
